

THE FIBER FOCUS

March 2026 Volume 2/ Issue 3

FEELING LUCKY?

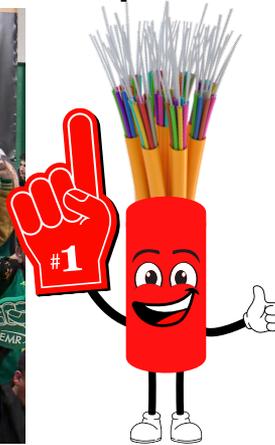

UPGRADE YOUR SPEED AND WIN EITHER WAY!

This March, upgrading your NEMR internet speed comes with more than just faster performance—it comes with a chance to win. Customers who upgrade to a higher speed will immediately enjoy smoother streaming, quicker downloads, and better connectivity across their home. Plus, every speed upgrade completed in March will automatically be entered into a drawing for a \$100 NEMR bill credit.

Valid for existing customers. Upgrade must be completed in March to be eligible. One winner will be selected at random. The \$100 bill credit will be applied after maintaining the upgraded speed for three consecutive billing cycles. Gigzilla customers are automatically entered in the drawing.

NEMR's Got Spirit, Yes We Do!
NEMR's Got Spirit How About You?

NEMR provided foam fingers to the student sections at Milan High School and Clark County High School. Both student sections were loud and proud. NEMR is happy to help boost hometown team spirit!

Great Northwest Days

NEMR's Jennifer Chrisman and Michele Gillespie attended the Great Northwest Day event at the Capitol. While they were there, they met with Missouri legislators and elected officials to talk about the importance of rural broadband. It was a great way to create collaboration and communication throughout the northwest region.

Serving Our Community, One Helping Hand at a Time

At NEMR, supporting our neighbors goes beyond providing reliable internet—it means showing up for our community whenever we can. Recently, several of our employees volunteered their time to assist local food pantries that serve families across our area. While these newsletter photos are AI-generated recreations, the volunteer work behind them is very real. Our team was busy helping and didn't have time to snap a photo—but we still wanted to recognize their dedication

NEMR's Gracey Gordon recently spoke at the Kirksville Rotary Club about scams, how to spot them, and how to report them. She shared helpful tips to protect personal information and encouraged attendees to stay alert. NEMR is proud to help educate our community and keep our neighbors safe online.

2026 Summer Interns Needed!

Paid Internship- Must be 17 Years Old

Part Time Office Intern(s)
Full Time Construction Intern(s)

Spring Projects Start with a Call to 811

Spring is the perfect time to start outdoor projects like planting trees, installing fences, and tackling landscaping—but before you dig, remember to call 811. It's free, it's easy, and it's the law. Calling 811 ensures underground utility lines, including NEMR fiber, are properly marked to help prevent damage, service interruptions, and safety hazards. A quick call before you dig protects you, your neighbors, and your connection—so dig safe and call 811 first.
